

1.Identification of the chemicals and of the business entity
Chemical Name : HIGH DENSITY POLYETHYLENE
Trade Name : UNITHENE [®]
Synonyms: High density polyethylene resins, HDPE
Recommended use and restrictions on use:
Each HDPE has its individual application such as flat yarn, coarse monofilament, injection molding, sheet extrusion.
Please refer to the TDS (Technical Data Sheet) for the detailed information.
Supplier Name : USI Corporation
Addresses / Phone: No.330, Fengren Rd., Renwu Dist., Kaohsiung City 81449, Taiwan (R.O.C.) / +886-2-8751-6888
Emergency contact phone numbers / fax numbers: +886-2-87516888 / +886-3-318-7229
2.Hazard(s) identification
Not a hazardous substance or mixture
Classification according to Regulation GHS : Not classified as hazardous
Classification according to Regulation (EC) No 1272/2008[CLP] : Not classified as hazardous
Label content: None
Other hazards: None
Results of PBT and vPvB assessment: This information is not required.
3.Composition/information on ingredients
Pure substance:
Chinese and English chemical name: 高密度聚乙烯, High density polyethylene
Synonyms: High density polyethylene resins, HDPE
CAS No.: 9002-88-4
REACH registration number: 01-2119462827-27-xxxx
с С
Hazardous ingredients (% of the content): None
Hazardous ingredients (% of the content): None 4. First-aid measures

6. Accidental release measu	ires				
Personal precautions:					
Spilled material may cause a slipping hazard.					
•Follow safe handling advice and personal protective equipment recommendations.					
Environmental precautions: Do not flush into surface water or sanitary sewer system.					
Methods for cleaning up: Stop leak and shovel into container for disposal.					
7. Handling and storage					
Handling: Before using, read the TDS (Technical Data Sheet).					
Use in well-ventilated area.					
Storage: Keep in a dry, cool place. Do not store in heat or direct sunlight.					
Keep in properly labelled containers and tightly closed when not being used.					
Specific end uses: None					
8. Exposure controls/perso	nal protection				
Engineering control:Ventilated area to prevent accumulation of fumes.					
Control parameters:					
•8-hour time weighted average exposure limits/Short-term exposure limits/Maximum exposure limits					
DFI -	PEL - Permissible exposure limit		Regulation		
I EL -			Regulation		
TLV-TWA	No applicable data (8hr)		USA -OSHA		
TLV-STEL	No applicable data	a (15min)	USA -OSHA		
TLV-C	No applicable data		USA -OSHA		
Environmental exposure controls: No special environmental precautions required.					
Biological standard: N/A					
Personal protective equipment:					
Respiratory protection:Use d	ust-proof mask.				
•Hand protection: Use rubber	gloves. Use thermal resistant g	gloves, when needed.			
• Eye protection: Use safety goggles, when fumes is present.					
•Skin and body protection: Lo		to protect skin exposu	ıre.		
Hygiene measures: None					
9. Physical and chemical p	roperties				
Appearance (physical state, col		Odor: negligible			
Odor threshold: No data availa	ble	Melting point: 125 ~ 140 $^\circ \!$			
pH value: Not applicable		Boiling point/boiling point range: No data available			
Flammability: No data available		Flash point: >340 °C			
Decomposition temperature: No data available		Test method : Open cup			
Auto-ignition temperature: ca. 400 °C		Explosion limits : Not applicable			
Vapor pressure: Not applicable		Vapor density: Not applicable			
Density: 0.940 ~ 0.965 g/cm ³		Solubility: Insoluble			
Partition coefficient(n-octanol/water,logKow): No data available		Evaporation rate : Not applicable			

10. Stability and reactivity Reactivity: Stable under normal conditions of handling, use and transportation. Stability: Stable under normal conditions. Possible hazardous reactions under specific conditions: •Stable under recommended storage conditions. •No hazards to be specially mentioned. Conditions to avoid: : Avoid heating above the recommended processing temperature. Materials to avoid: Might react with strong oxidant. Hazardous decomposition products: Material does not decompose at ambient temperatures. **11.** Toxicological information Routes of exposure : Skin, eyes, inhalation and ingestion **Immediate effects:** •Eve: Solid or dust may cause irritation or corneal injury due to mechanical action. Inhalation : Dusts and vapors or fumes evolved during thermal processing may cause irritation to the respiratory system. Skin contact: No skin irritation. •Ingestion: Essentially non-toxic based on components. Unable to digest. Other : Carcinogenicity : No data available Acute toxicity: No data available Chronic toxicity: No data available **12. Ecological information** Ecotoxicity: Difficult to biodegrade. It can be recycled with appropriate technologies. Persistence and degradability:Hard to naturally degrade. **Bioaccumulative potential: None** Mobility in soil: None Results of PBT and vPvB assessment: This information is not required. Other adverse effects: Improper burning may generate hazardous gas. **13. Disposal considerations** Methods of waste disposal: Dispose of waste material at an approved waste incineration facility in accordance with applicable regulations. **14. Transport information** United Nations number (UN No): Not regulated UN Proper shipping name: Not regulated Transport hazard class(es): Not regulated as a hazardous for transportation. Packing group: Not regulated Marine pollutant (Yes/No): Not regulated Specific transport measures and precautionary conditions: Not regulated Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code : Not applicable. The general rule for classification and hazard communication of chemicals (RID-ADR, IMO, IATA, IMDG): Not regulated for transport.

15. Regulatory information	
HIGH DENSITY POLYETHYLENE (CAS No.9002-88-4) is listed in the following chemical inventories:	
-Australian-AICS	
-Canada-DSL	
-Chinese Inventory of Existing Chemical Substances	
-European EINECS are exempt from the listings, all monomers are listed.	
-Japan-ENCS	
-New Zealand-NZIoC	
-Philippines-PICCS	
-USA-TSCA	
-Taiwan - Taiwan's chemical substance inventory (TCSI)	
16. Other information	
Abbreviation and Acronym:	
CAS - Chemical Abstracts Service (division of the American Chemical Society)	
CLP - Classification, Labelling and Packaging	
GHS - Globally Harmonized System of Classification and Labelling of Chemicals	
IBC Code - International Bulk Chemical Code	
MARPOL - International Convention for the Prevention of Pollution from Ships	
PBT - persistent, bioaccumulative and toxic	
PEL - Permissible exposure limit	
TLV-C - Threshold Limit Values-Ceiling exposure limit	
TLV-STEL - Threshold Limit Values-Short Time Exposire Limit	
TLV-TWA - Threshold Limit Values-Time Weighted Average	
USA-OSHA - Occupational Safety and Health Administration	
vPvB - very Persistent and very Bioaccumulative	
Reference : None	
Producer : USI Corporation	
Addresses : No. 9, Dinghu 5th St., Guishan Dist., Taoyuan City 333, Taiwan	
Phone Number : +886-2-8751-6888	
Person who prepared the SDS : R & D Division	
Date that the SDS was prepared : 2024/01/02
